20a. How does the Committee accomplish its purpose?

On June 23, 2010, the Comptroller General announced the appointment of a 15 member CO-OP Program Advisory Board to make recommendations to the Department of Health and Human Services (“the Department” or “the Secretary”) on awarding loans and grants. The Board as a whole convened three times in 2011 (January 13, February 7, and March 14) to listen to expert panels and members of the public on how best to assure that sustainable CO-OPs are established. The Chair divided the Board into four workgroups to address specific issues in greater detail and formulate proposed recommendations on the following topics: governance, finance, infrastructure, and process, criteria and compliance. The workgroups presented preliminary recommendations for discussion at the February 7 meeting, and the Board incorporated these recommendations in its proposed draft report presented at the March 14 meeting. At the March 14 meeting, the Board also received comments from the public on its draft report and adopted in substance final recommendations. The Board also considered public comments submitted in response to the CO-OP Request for Comment that was issued in the Federal Register on February 2, 2011. It convened for the last time on April 15 to vote on the final report reflecting the substantive recommendations adopted on March 14. What emerged from these discussions is the conviction that fostering the creation of CO-OPs should provide the operational framework for the program. This means that the Department should develop flexible criteria that recognize the diversity of market conditions around the country and enable various models of CO-OPs created and supported by different types of 5 sponsors to develop. It also means that the availability of technical assistance at all stages of the process from loan application to licensure to operation, will be important to the viability of individual CO-OPs and the success of the program.

20b. How does the Committee balance its membership?

The Comptroller General (GAO) selected the members. The selection was based on the statute, which requires them to appoint 15 members from among individuals with qualifications described in section 1805(c)(2) of the Social Security Act--that is, the qualifications for MedPAC. In addition, the statute requires that appointees shall meet ethics and conflict of interest standards protecting against insurance industry involvement and interference. They were selected from [among] outstanding authorities in the fields of health finance and economics; actuarial science; health facility management and reimbursement; and integrated delivery systems. In addition, they were selected from

physicians and other health professionals; employers; researchers in health insurance, health services and economics, and outcomes and effectiveness; experts in the area of pharmacoeconomics or prescription drug benefit programs; and representatives of consumers and the elderly.

20c. How frequent and relevant are the Committee Meetings?

Board did not operate in 2012.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This committee is necessary by statute.

20e. Why is it necessary to close and/or partially closed committee meetings?

All four meetings were open to the public.

21. Remarks

The Board was terminated on January 31, 2012 and did not operate at all in 2012. The FACA operated with unusual speed and intensity and provided recommendations within 4 months of first convening.

Outcome Comments

The Advisory Board endorsed four major principles for awarding loans and grants that inform all of the recommendations: (1) consumer operation, control, and focus must be the salient feature of the CO-OP and must be sustained over time; (2) solvency and the financial stability of coverage need to be maintained and promoted; (3) CO-OPs should encourage greater care coordination, quality and efficiency to the extent feasible in local provider and plan markets; and (4) first loans should be rolled out as expeditiously as possible (by the end of 2011) if the CO-OPs are to compete in the Health Benefit Exchanges in the critical first open enrollment period (2014).
